

9/14/2009

Dear Parent(s) or Guardian(s):

Western Beaver County School District will be providing an in-service training session about the Supplementary Aids and Services (SAS) Toolkit on Friday, October 9<sup>th</sup> 2009 from 1pm to 3pm. The SAS Toolkit is a tool and process to guide IEP teams in identifying supplementary aids and services that will help individual students access the general education curriculum alongside their peers who do not have disabilities. Teams of teachers from each level (Elementary, Jr. High, and Sr. High) will be grouped together so that the discussion is more relevant to their grade levels. Grades K-5 will be at Fairview. Grades 6-8 and 9-12 will be at the High School. Your participation is welcome and we ask that you join the grouping that represents the grade level of your child. We hope to see a great turn out of parents and teachers at these sessions. If you plan to attend, please complete and return the form below no later than October 1<sup>st</sup> 2009. That way, we can prepare materials for you. Thank you.

Sincerely,

Eric J. Palmer  
School Psychologist
