

Student iPass Instructions

In order to access your student account, you will need your student ID number. This is typically your 7 digit code that begins with your graduation year. This is the same number that students use to purchase a lunch in the cafeteria. *Example – 2016123*

Student usernames are typically the first letter of your first name (capitalized), plus your entire last name with the first letter in your last name being capitalized. *Example – DBrandon*

The only exception to the rule is if you have a sibling that shares the same first initial **AND** last name. When this situation occurs, one of you will have to use the first two letters of your first name, plus your entire last name. These letters will **ALL** be lowercase!

Once you have successfully accessed your account, you will then expand the “iStudent” folder. Within this folder, you may access your “iStudent Schedule.”

If you experience issues with logging into your iPass account, please contact the office at 724.643.8500.
